

Problem-Solution Fit

[illegible]

Maximum Marks: 5 Marks

Canvas	LegalEase
Customer Segment(s)	Students, freelancers, small businesses and users needing routine legal-document drafts.
Problems / Pains	Time-consuming manual drafting, formatting, repeated clauses and uncertainty about starting wording.
Triggers to Act	Need for an agreement, NDA, contract, lease or similar draft.
Emotions Before / After	Before: uncertain/time-pressed. After: clearer drafting workflow, with responsibility to review output.
Available Solutions: Pros & Cons	Manual templates: familiar but repetitive. Professional drafting: expert review but may cost more/time. AI drafting: fast but requires careful human review.
Customer Limitations	Varied technical/legal knowledge, limited time, access to internet/API service.
Behavior + Intensity	Users enter structured details, generate, review, edit and export.
Channels	Web application through Streamlit; local development through VS Code.
Problem Root / Cause	Legal language and formatting are specialized and drafting often begins from blank documents/templates.
Your Solution	LegalEase: guided input + Gemini generation + review/edit + TXT/DOCX/PDF export.
