

Code-Layout, Readability and Reusability

[illegible]

Maximum Marks: 5 Marks

S.No	Code Quality Parameter	Status	Remarks
1	Consistent Indentation	Yes	Python modules use consistent formatting.
2	Proper File Structure	Yes	Separate ai_core, API, frontend, formatting and utils folders.
3	Meaningful Variable Names	Yes	Names such as document_type, parties, terms and dates are descriptive.
4	Function / Method Names	Yes	Functions describe their purpose such as generate_document and format_pdf.
5	Code Comments	Yes	Modules contain docstrings and useful comments.
6	Modular Design	Yes	AI, API, UI and formatting are separated.
7	No Redundant Code	Partial	Further refactoring can be done as the project grows.
8	Error Handling	Yes	API and frontend handle common failures.

Reusable Components / Modules

Component	Technology	Where Reused	Level
GeminiDocumentGenerator	Python	Backend generation workflow	High
format_docx	Python/python-docx	DOCX export	High
format_pdf	Python/fpdf2	PDF export	High
sanitize_text	Python/Regex	Document export safety	High
HTML preview formatter	Python/HTML	Streamlit preview	Medium
